Hi Niels,

Thank you for your message. I wish you the best for 2016, too.

I do agree that both datasets be included in WoSIS under a CC-BY licence.

The references for these datasets are (respectively):

- Samuel-Rosa, A.; Dalmolin, R. S. D.; Pedron, F. A. Characterization of soil covers in closed landfill sites with (geo)statistical tools. Engenharia Sanitaria e Ambiental. v. 16, p. 121-126, 2011. [http://www.scielo.br/scielo.php?script=sci\\_arttext&pid=S1413-41522011000200004&lng=pt](http://www.scielo.br/scielo.php?script=sci_arttext&pid=S1413-41522011000200004&lng=pt)

Hi Alessandro,

Best wishes for 2016.

We are in the process of documenting permissions/licences for including data sets into WoSIS and subsequently serving derived datasets to the international community.

Two of your data sets are being considered for this; these are known to us as:

“Alessandro Samuel-Rosa data from Caturrita, Santa Maria, Rio Grande do Sul, Brazil”

“Alessandro Samuel-Rosa PhD thesis data from Santa Maria, Rio Grande do Sul, Brazil”

For good order, can you please indicate by return e-mail whether these data sets may be included under a CC-BY licence in WoSIS.

Can you also so provide the full reference for these two data sets for citation purposes.

Thanks and with best wishes,

Niels
